DAY 1

INTERNSHIP AT AKASH TECHNO LABS

- The first day of internship was taken by our mentor - Akash Padhiyar.
- He took the introductory session and gave us brief breakdown about his company and about the internship and the technology which we were going to use during our internship and how internships play a vital role to boost our profile .
- Later on we started with our topic programming language python which will be of 1 week, followed by Django framework in the next week.
- As this was our first day he just simply assigned a task.
